IN THE CLAIMS:

Claim 57, line 3, replace "hydroxyethyl" with --hydroxyester--.

Claim 58, line 2, replace "hydroxyethyl" with --hydroxyester--.

Claim 59, line 4, replace "hydroxyethyl" with --hydroxyester--.

Claim 60, line 2, replace "hydroxyethyl" with --hydroxyester--.

Claim 61, line 4, replace "hydroxyethyl" with --hydroxyester--.

Claim 62, line 4, replace "hydroxyethyl" with --hydroxyester--.

REMARKS

This amendment is being submitted to correct typographical errors in the specification and claims. In particular, Acudyne™ 255, used in Example 6 of the specification, is an acrylates/hydroxyester ~~acrylates~~ copolymer. See, e.g., *International Cosmetic Ingredient Dictionary and Handbook*, 7<sup>th</sup> ed., vol. 3, p. 1806 (copy attached). Accordingly, reference in Example 6 of the specification to Acudyne™ 255 as methacrylic acid/hydroxyethyl methacrylate/butyl acrylate/methyl methacrylate terpolymer is a typographical error, which should instead read: methacrylic acid/hydroxyester methacrylate/butyl acrylate/methyl methacrylate terpolymer. Similarly, reference in claims 57-62, which, as indicated in the Supplemental Amendment submitted July 30, 1999, have written description support in Example 6, to methacrylic acid/hydroxyethyl methacrylate/butyl acrylate/methyl methacrylate
